Introduction

The Livermore Valley Joint Unified School District (LVJUSD) serves 13,500 students in grades TK-12 and preschool for students in our Migrant Education Program and our Special Education Program. Throughout the COVID-19 pandemic we continue to maintain the commitment to prepare each student to graduate with the skills needed to contribute and thrive in a changing world. LVJUSD pivoted to distance learning on March 16, 2020 and maintained that mode of instruction through the end of the academic year on June 4, 2020. The 2020-21 school year launched with a revised distance learning program that serves all of our students. We are committed to providing distance learning as an option to each student and family through the conclusion of the 2020-21 school year, on June 10, 2021. We will also offer the opportunity for students to return to the classroom, following guidance from the Alameda County Public Health Department (ACPHD), the Alameda County Office of Education (ACOE), and the California Department of Education (CDE)..

This COVID-19 Safety Plan for In-Person Learning provides detailed information to ACOE, CDE, and to the Livermore community that supports our ability to open our classrooms and schools to in-person learning, with reduced numbers of students on campus at any given time. With this plan in place, our schools will be able to offer in-person learning and support opportunities for students. The actual number of participants in the on-campus opportunities will be determined by the expressed needs of parents and guardians combined with the availability of staff members who are able to work in person.

We had previously been approved by ACOE to open our schools for general support hubs as early as November 30, 2020, but as Alameda County moved into the purple tier, our plans were put on hold. We continue to offer student support under the Small Group Cohort Guidance. As indicated in this plan, we are prepared to open our schools to in-person learning for all grades, TK-12, as of March 22, 2021. For students in grades Preschool - Fifth, the date is assured; for middle and high school students, the date depends on Alameda County being in the Red Tier. We are committed to offering in-person learning opportunities as soon as we are eligible.

We are ready to welcome students and staff to in-person learning. Whether students and staff return to campus for learning depends also on what our families want for their children. We will continue to offer distance learning as a viable option for instruction. We have surveyed our families asking for their commitment for their children to either distance or in-person learning, and principals are finalizing classes and logistics for reopening.

LVJUSD values the health and safety of all students, families and staff members. Our COVID-19 Safety Plan for In-Person Learning has been developed with the expertise of our educators, our operations staff, and our school nurses, and with input from the Reopening Task Force, a representative group of all stakeholders. This plan adheres to the requirements defined in the [COVID-19 and Reopening In-Person Instruction Framework & Public Health Guidance for K-12](#)

[Schools in California, 2020-2021 School Year](#), published on January 14, 2021, which reflects the most current directives from the State and County health departments. All elements of this plan are in place and will be operational before students return. Implementation of this plan, and returning students to in-person learning, is contingent upon the status of the pandemic in our community.

LVJUSD Contact Information

- Name of School District: Livermore Valley Joint Unified School District
- Address: 685 E. Jack London Blvd., Livermore, CA, 94551
- Website: www.livermoreschools.org
- Superintendent: Kelly Bowers, Ed.D
- Date of Reopening: March 22, 2021
- School Type: Public
- Name/Title/Email and Phone of COVID-19 liaison:
 - Carolyn Reggiardo, BSN, RN, MSN School Nurse
 - creggiardo@lvjUSD.org
 - 925-74-64-6-3925

COVID-19 Prevention Program (CPP)

Our district has in place, and has posted on our website, a detailed COVID-19 Prevention Program (CPP), pursuant to CalOSHA requirements. This document can be found by visiting livermoreschools.org/covid-19preventionprogram.

COVID-19 Safety Plan Checklist

Our completed checklist is posted on our website, along with the CPP: [COVID-19 Safety Plan Checklist](#).

LVJUSD COVID-19 Safety Plan for In-Person Instruction Posted to Website

This [LVJUSD COVID-19 Safety Plan for In-Person Instruction](#) is posted on our LVJUSD website in English and in Spanish and can be printed from the pdf on the website. In addition, our plan is reflected in the In Person Learning section of our updated [LVJUSD Spring 2021 Handbook](#), also posted on our District and school websites in both English and Spanish.

Stable Group Structures

During in-person learning, LVJUSD will maintain stable group structures following the guidance of the [COVID-19 and Reopening In-Person Instruction Framework & Public Health Guidance for K-12 Schools in California, 2020-2021 School Year](#) document. Specifically:

- Elementary students will be kept in small, stable, groups with fixed membership that stay together for all activities. These groups will be limited to the number of students that can be physically distanced in a designated space, allowing for 4-6 feet of distance between students.
- Schedules and movement on campus will minimize contact between different groups.
- Elementary students will be allowed to participate in one educational group and one extracurricular group, as defined in the [Alameda County COVID-19 School Guidance plan](#).
- Students at middle and high schools will remain in the same space and in groups as small and as consistent as possible. When it is not possible to remain in stable groups within the same space (e.g. secondary school), face masks and limiting group gatherings will be highly prioritized. Secondary students will be limited to participation in one extracurricular group outside of the school day.

Entrance, Egress, and Movement within the School

Movement of students, staff, and parents will be managed to avoid close contact or mixing of groups.

- Each site will identify and label entrances and exits to avoid congregating during the start and end of each group's daily schedule.
- Schools will have one-way foot traffic designated in hallways and walking areas.
- During the day, supervision by adults will support students keeping a 4-6-foot distance. Elementary school recess times for each group will be staggered or limited to specific areas of the campus.
- Expectations for adhering to social distancing requirements have been and will continue to be explicitly communicated to all staff, and staff will be expected to avoid congregating in areas of the campus and to maintain a 4-6-foot distance from each other.
- Requirements for face masks and physical distancing extend to all contractors and visitors to District and school sites, including parents and guardians as they bring children to school and pick them up from school.
- Parents and guardians are not allowed on campus during instruction, other than to pick up information at the office by appointment only to avoid overcrowding in the offices and to protect office staff. No parents will be standing in the office unless they have made an appointment to be there. Drop boxes outside of office doors for paperwork or forgotten items for students. The number of parents standing in the office will be limited. Any essential in-person parent meetings will be held after hours outside, if possible, or in rooms with physical distancing, face masks, and adequate ventilation.

Face Coverings and other Essential Protective Gear

CDPH and ACPHD's face covering requirements, as indicated in [ACPHD Order 20-13](#) will be satisfied and enforced.

- Cloth face masks will be required (except when eating or drinking) for students (age 2 and up) and all school staff, with the exception of students unable to wear them due to special circumstances such as particular developmental or health diagnosis that would limit their ability to wear a face covering. Staff will remind and assist students with wearing the cloth face masks in all settings, except during meals.
- We will also have signs posted throughout the campus to help remind staff and students, and to reinforce wearing of face masks.
- Appropriate personal protective equipment (PPE) will be supplied to staff and students when needed or requested.
- Our district has secured personal protective equipment (i.e. face masks, shields) for staff and students, based on CDPH and CalOSHA guidelines. Supplies have been distributed to sites for staff and students who may have forgotten to bring their cloth masks to school/work.

Health Screenings for Students and Staff

In order to limit the spread of COVID-19, students and staff will be screened for symptoms prior to entry to a District or school site. Students and staff who exhibit symptoms will be taken to an isolation area where they can be observed until they are able to go home.

The health screening asks information in the following three areas:

- 1) possible exposure to someone with COVID-19
- 2) symptoms and visual screening for illness
- 3) temperature

All staff members are required to complete a daily, online symptom check screening prior to coming on to a District site. All students (parents/guardians) are also required to complete daily online symptom check, prior to coming to campus each day. We are using the MBA COVID-19 plugin with PowerSchool, our student information system, which allows us to record responses, run reports, and facilitate contact tracing among students and staff.

Health Hygiene Practices

Hand sanitizer stations will be readily available at all sites so that students and staff can frequently make use of them. All will be encouraged to apply hand sanitizer upon entrance to and exit from any District or school site.

- Every elementary classroom in our District has a sink. Soap dispensers and signage have been placed at each sink for handwashing. Soap dispensers will be filled as needed.
- Middle and high school students have access to sinks in restrooms and some classrooms. Soap dispensers will be filled as needed.
- All classrooms have hand sanitizer stations or bottles. Hand sanitizer stations and bottles will be available throughout the school in common spaces. All entering and exiting classrooms must use the hand sanitizer every time - "Gel in and gel out."

Understanding and implementation of health hygiene practices will be promoted and incorporated into daily routines at schools and District sites. Principals and teachers will publicize and teach proper hygiene practices with daily reminders. Communication through newsletters, websites, and social media will promote proper hygiene practices among families and throughout our district community. In particular, the habits of handwashing, covering coughs and sneezes, and maintaining physical distancing - in addition to wearing a face mask - will be the norm.

To further the effect of proper hygiene, the use of shared items will be minimized. Each student will have their own individual supplies for individual assignments and projects. Common tools will be wiped down with disinfectant wipes between uses.

Public Health Commitments: Cleaning & Disinfection

LVJUSD Custodial teams at each District and school site follow guidance for reopening from the Centers for Disease Control and Prevention, the California Department of Education (CDE), and the Alameda County Public Health Department (ACPHD). In addition to regularly scheduled cleanings, our team will clean all high touch surfaces including tables, counters, desktops, chairs, doorknobs, door touch points, window handles, light switches, sink faucets, and dispensers between cohort classes or daily, whichever is more frequent. Spray bottles with disinfectant will be available in classrooms and other office locations at each site for use by teachers and office staff as needed to satisfy their comfort level with surface conditions in addition to the standard cleaning measures listed below. Note: drinking fountains will not be in use during hybrid learning.

In addition to standard cleaning and manual disinfecting procedures, custodians will routinely use electrostatic spraying, a process that emits positively charged particles that "wrap around" surfaces in classrooms and offices and uniformly disinfects the harder to reach areas. The product, EPA N listed Waxie 730 HP (EPA 45745-11), will be used in the electrostatic machine. This machine provides a mist that disinfects all surfaces. This product dries 5-10 minutes after application.

Additionally, hand sanitizer will be provided for every classroom, workroom, workstation (for those site workers who do not have a traditional classroom), office, cafeteria, and outdoor area.

- **Classrooms, Work Spaces & Multi-Purpose Rooms - Daily Cleaning**
 - Empty trash, recycling, and compost, if applicable.
 - Check and refill, as needed, paper towel, soap, and hand sanitizer dispensers.
 - Clean all soiled surfaces including tables, counter, desktops, chairs, door handles/panic bars, door touch points, window handles, light switches, sink faucets, and dispensers with a clean microfiber towel with Envirox H2Orange2 cleaner.
 - Disinfect using EPA N listed Waxie 730 HP (EPA 45745-11) in the electrostatic machine. Disinfect all high touch surfaces including tables, counters, desktops, chairs, doorknobs, door touch points, window handles, light switches, sink faucets, and dispensers. Make sure the areas are thoroughly covered with the Waxie 730 HP disinfectant and allow the chemical to air dry.
 - If Vinyl Composition Tile or Luxury Vinyl Tile floor is present, mop and clean/disinfect.
 - Restrooms are monitored and cleaned frequently. They will be sanitized after a known exposure.
 - In the case of AM/PM in-person groups at elementary schools, additional cleaning between groups:
 - Custodians will clean desks and all touch points with 730 HP disinfectant. Dispensers for soap, paper towels and hand sanitizer will be checked and refilled as needed.
 - All student bathrooms in use shall be cleaned and touch points disinfected. Dispensers will be checked and filled as needed.

- **Cleaning and Disinfecting Protocol if COVID-19 Positive or Potentially Positive Case**
 - Immediately close the space or spaces where the student/staff member was working, and keep closed for 24 hours.
 - After a minimum 24-hour period, the custodian will enter in full PPE (disposable gloves, N-95 or KN95 mask, face shield or goggles, and gown).
 - The space will be cleaned and disinfected following CDC recommended guidelines, as indicated above in daily cleaning protocol: all surfaces will be cleaned with Envirox H2Orange2 cleaner, and hard surface floors will be cleaned with EPA N listed Waxie 730 HP disinfectant.
 - The electrostatic sprayer will be used to disinfect the space: using EPA N listed Waxie 730 HP (EPA 45745-11) in the electrostatic machine, all surfaces will be thoroughly covered with the Waxie 730 HP disinfectant, and the chemical will be allowed to dry before others can enter the space.

Public Health Commitments: HVAC & Ventilation

Throughout our district, we have modified our ventilation systems to increase the flow of fresh outdoor air within school buildings. The following measures will be completed prior to students returning to school:

- HVAC service technicians have adjusted HVAC units so the outside air dampers are set to allow the most outside air into the rooms as is practicable and still maintain some level of comfort inside the rooms.
- HVAC service technicians have installed MERV 13 filters in every HVAC unit throughout the district. The MERV 13 filters help prevent the spread of COVID-19 within each space. Classrooms with units that cannot properly work with a MERV 13 filter have had air purifiers added to the room.
- During remote learning, thermostats are programmed to operate when the occupant manually sets the wall thermostat to their desired temperature, between 4-69 and 75 degrees Fahrenheit; otherwise they will be off. This is to accommodate those situations where some teachers are not in their classrooms every day. Prior to students returning to the classrooms, the thermostat programming will be changed to pre-ventilate the rooms by turning on HVAC fans and pulling in outside air prior to occupancy.
- Door sensors have been disabled on those classrooms that have Pelican thermostats, allowing the teachers to leave the doors open if they choose while also allowing the HVAC units to operate continuously.

Once classrooms are occupied, during in-person learning:

- HVAC Technicians will maintain a regular filter replacement schedule.
- When outside air temperature allows, staff members are encouraged to open windows if the room has operable windows. When leaving the room at the end of the day, windows should be closed for security reasons.

Identification and Tracing of Contacts

To suppress the spread of COVID-19, we will respond immediately when we are notified of any confirmed positive cases of COVID-19. All of our procedures follow the guidelines and requirements identified in the [COVID-19 and Reopening In-Person Instruction Framework & Public Health Guidance for K-12 Schools in California, 2020-2021 School Year](#) as well as the [COVID-19 School Guidance: Alameda County School Reopening Plans](#) document. In addition, our [LVJUSD Spring 2021 Handbook](#) contains specific scenario examples that outline our responses to a confirmed positive test by a student or staff member.

Each school site has a school nurse assigned to support health and wellness needs at the site, who serves as the designated staff member to support contact tracing and communicates directly with the ACPHD. Our District COVID-19 liaison is also the point of contact for District sites and oversees the contact tracing process throughout our district and schools.

Contact tracing includes identification of students and staff members who are confirmed positive with COVID-19, notification of ACPHD, and notification of students (and parents/guardians) and staff members who have been in close contact with the individual who tested positive.

If there is a confirmed positive case of a student or staff member during hybrid learning:

- The school nurse will contact the Alameda County Public Health Department

- All HIPAA and FERPA regulations will be followed.
- Close contacts will be notified that there was a confirmed positive case and will be advised to quarantine for 14 (calendar) days.
- Siblings and household members of the confirmed positive individuals will be notified of ACPHD and CDC protocols and advised to quarantine for 14 days. Siblings of confirmed positive students should not participate in in-person learning during the quarantine period.
- Classroom and/or work space of the confirmed positive individual will be cleaned and disinfected, as outlined in the Cleaning & Disinfection section of this plan.

Parents and guardians are encouraged to become familiar with ACPHD COVID-19 guidelines. If any member of a household tests positive, all should quarantine for 14 days. Students who miss school because of being quarantined will be able to make up all missed work, and their absences will be excused. Staff members who are unable to work will use sick leave for their absence.

Physical Distancing

Space and routines will be arranged to allow for physical distancing of students and staff, allowing for 4-6 feet of distance between individuals.

- Within the classroom, students will be seated at desks or tables that provide 4-6 feet of space between students, measured from the center of the back of the chair to the center of the back of the chair. In smaller classrooms, desks will be spaced apart; in larger classrooms, students will be seated at alternate desks, with each cohort using its own set of desks.

Staff Training and Family Education

Staff members and families will be informed of the details of this plan and will comply with it. The [LVJUSD Spring 2021 Handbook](#) contains applicable information from this plan and is available to all members of our community on our website.

In addition to this plan, all staff members participated in mandatory COVID-19 training, titled “Coronavirus Awareness” as part of our annual Keenan trainings.

All school and District level administrators have familiarized themselves with the current order from the Alameda County Public Health Department, and continue to stay apprised of changes issued by ACPHD. The [ACPHD COVID-19 Updates](#) page on the ACPHD website contains the latest information.

In addition, administrators are familiar with the [COVID-19 and Reopening In-Person Instruction Framework & Public Health Guidance for K-12 Schools in California, 2020-2021 School Year](#) document that was used to guide this plan. In addition, our Superintendent and COVID-19

Liaison continue to meet regularly with representatives from ACPHD and ACOE to ensure that our district is current on the requirements to maintain the necessary health and safety standards.

Testing of Staff

To prevent the spread of COVID-19, all staff members are required to participate in online health screenings prior to entering their work site each day. In addition, our district has entered into a contract with Curative to provide ongoing, regular testing of staff members. Initial testing began in January 2021 and is scheduled to continue indefinitely, testing all staff members on a monthly basis.

Currently, there is COVID-19 testing available in our community for any individuals who are experiencing symptoms and/or feel the need to be tested. We have a partnership with [STAT MED Livermore](#) which provides our staff members with local testing for COVID-19.

Vaccination of Staff

Following the February 2, 2021 meeting of the Board of Education, additional criteria established by the Livermore Valley Joint Unified School District is the availability of full COVID-19 vaccinations for all teachers and staff prior to a full-scale reopening. We anticipate close to 90% of staff being vaccinated in March.

Testing of Students

To prevent the spread of COVID-19, all students (parents and guardians) will submit a daily online screening prior to coming to campus. We are using the MBA COVID-19 plugin with PowerSchool, our student information system, which allows us to record responses, run reports, and facilitate contact tracing among students and staff.

In addition, we have a contract with Valencia Labs to provide student testing for athletes and on an as-needed basis.

Identification and Reporting of Cases

Should a student or staff member feel or exhibit signs of illness that align with the symptoms of COVID-19, they shall immediately be separated from others. Each District and school site will identify an isolation area for this purpose.

Signs and symptoms of illness include:

- Fever 100 degrees or above
- Cough/runny nose/sore throat
- Nausea/vomiting
- Abdominal pain/diarrhea
- Sudden loss of taste/smell

If a student becomes ill:

- The teacher will call the office and inform the administrator that a student is being escorted up to the isolation area.
- Office staff will call the parent/guardian to have the student picked up immediately.
- The student will remain in the isolation area, wearing a mask, and in view of a staff member until pickup.
- The student will be escorted to their parent's vehicle in the most direct route possible, minimizing contact with others as much as possible.
- Parents will be advised to contact their healthcare provider and consider COVID-19 testing, if indicated. They should follow strict isolation unless COVID-19 has been ruled out by their healthcare provider. Community resources are available upon request.
- An ill student sent home will require a negative COVID test or a health provider's note or completion of the 14-day quarantine.

If a staff member becomes ill:

- An ill staff member will notify their site administrator and leave campus promptly, minimizing contact with others as much as possible.
- Staff members will be advised to contact their healthcare provider and consider COVID-19 testing, if indicated. They should follow strict isolation unless COVID-19 has been ruled out by their healthcare provider. Community resources are available upon request.

Site administrators will notify school site nurses at their earliest convenience in order to receive further direction as to next steps. Our nurses, in conjunction with the Alameda County Public Health Department (ACPHD), will notify anyone who has been in close contact with someone who tests positive for COVID-19. A close contact is defined as a person who is within 4-6 feet from a case for more than 15 minutes cumulative within a 24-hour period, regardless of face coverings. We will be using the MBA COVID-19 program within PowerSchool to allow contact tracing among students and staff. In some school situations, it may be difficult to determine whether individuals have met this criterion and an entire stable group, classroom, or other group may need to be considered exposed, particularly if people have spent time together indoors. (See [ACPHD Definition of Close Contact](#))

Custodial staff will be notified and follow cleaning protocols for both the isolation room as well as the student's or staff member's classroom or work space, if necessary.

Our district maintains a [COVID-19 Case Dashboard](#) that is available on our website which shares with the public the numbers of COVID-19 positive cases that have been reported at each District site. We will report all confirmed COVID-19 cases among staff and students who test positive for COVID-19 and are physically present at district schools and facilities during their infectious period for COVID-19. The infectious period begins two days before the onset of symptoms. If the case did not have symptoms, the infectious period is considered to be two days prior to the testing date. (Note that staff includes all employees including contractors, substitutes, and others working at LVJUSD schools and facilities.)

Communication Plans

District leadership has maintained ongoing communication with families and staff members since before the onset of the coronavirus in spring 2020. Site communication augments District messaging and provides specific information to students, families, and staff members at each site.

We are committed to maintaining ongoing communication and outreach:

- The [LVJUSD Spring 2021 Handbook](#) is available on the homepage of each district and school website, providing access to complete information about distance learning, hybrid learning, and health and safety guidelines.
- Our website includes a [Reopening Information](#) section that provides updated information about our progress toward being able to reopen our schools to in-person learning, including an informative [Reopening Checklist](#) that provides our community with the details of our preparation..
- Email communications to families and staff members share updates and information; letters are posted on our website for community access on the [2020-21 Communication & Updates](#) page.
- A [Frequently Asked Questions](#) page provides current information and additional clarity around relevant topics.
- Surveys are shared with students, parents, and/or staff members to garner feedback and input on relevant topics including hybrid learning and reopening.
- District social media platforms and our Livermore Schools mobile app share current information and alerts, as needed.

Consultation with Labor Organizations & Parent and Community Groups

Our district values collaboration with our employees and meets continually with our labor groups throughout the school year. We have met on a regular basis since the beginning of the COVID-19 pandemic, and have involved union leadership in the development of our response to COVID-19, our development and implementation of distance learning, and our development and planning for reopening.

We also value our partnership with our families and provide opportunities for parents, guardians, and community members to give input into matters of decision-making throughout the year. In addition to regularly scheduled monthly meetings of the Parent Club Information Council (PCIC), the District English Language Advisory Committee (DELAC), and school English Language Advisory Committee (ELAC) and Site Council meetings, we have convened a Reopening Task Force which has been meeting on a regular basis starting in June 2020, and weekly since December 2020, with the mission of providing input and feedback on distance learning and plans for reopening. On January 19, 2021, we hosted a webinar on the topic of reopening schools, which was open to our entire community. We continue to advertise our Board meetings

and solicit public comment on all matters, including those related to COVID-19, distance learning, and reopening.

Conclusion

This plan meets all of the requirements outlined in the [COVID-19 and Reopening In-Person Instruction Framework & Public Health Guidance for K-12 Schools in California, 2020-2021 School Year](#).

In addition to the information included in this plan, we are providing details to our families that will support the successful implementation of hybrid learning including Child Nutrition information, cohort schedules, mental health resources, and additional details about the implementation of hybrid learning - all of which can be found in our [LVJUSD Spring 2021 Handbook](#).

Appendix: School Information

Elementary and K-8 Schools

Following are the elementary schools within LVJUSD, along with the total number of staff members and the total student population of each school, followed by the number returning to campus this spring.

Altamont Creek Elementary School

- Address: 6500 Garaventa Ranch Rd., Livermore, CA 94551
- Website: livermoreschools.org/altamont
- Number of students enrolled/returning: 606/388
- Number of staff/returning: 32/32
- Grade levels served: TK - 5
- Grade levels to be reopened: TK - 5

Arroyo Seco Elementary School

- Address: 5280 Irene Way, Livermore, CA 94550
- Website: livermoreschools.org/seco
- Number of students enrolled/returning: 630/462
- Number of staff/returning: 33/33
- Grade levels served: TK - 5
- Grade levels to be reopened: TK - 5

Leo Croce Elementary School

- Address: 5650 Scenic Ave., Livermore, CA 94551
- Website: livermoreschools.org/croce
- Number of students enrolled/returning: 676/357
- Number of staff/returning: 33/31
- Grade levels served: PK - 5
- Grade levels to be reopened: PK - 5

Jackson Avenue Elementary School

- Address: 554 Jackson Ave., Livermore, CA 94550
- Website: livermoreschools.org/jackson
- Number of students enrolled/returning: 487/309
- Number of staff/returning: 29/29
- Grade levels served: TK - 5
- Grade levels to be reopened: TK - 5

Joe Michell K-8 School

- Address: 1001 Elaine Ave., Livermore CA 94550
- Website: livermoreschools.org/michell
- Number of students enrolled/returning: 779/574

- Number of staff/returning: 41/39
- Grade levels served: TK - 8
- Grade levels to be reopened: TK - 8

Junction Avenue K-8 School

- Address: 298 Junction Ave., Livermore, CA 94550
- Website: livermoreschools.org/junction
- Number of students enrolled/returning: 929/455
- Number of staff/returning: 48/47
- Grade levels served: PK - 8
- Grade levels to be reopened: PK - 8

Lawrence Elementary School

- Address: 2451 Portola Ave., Livermore CA 94551
- Website: livermoreschools.org/lawrence
- Number of students enrolled/returning: 359/226
- Number of staff/returning: 18/18
- Grade levels served: TK - 5
- Grade levels to be reopened: TK - 5

Marylin Avenue Elementary School

- Address: 800 Marylin Ave., Livermore, CA 94551
- Website: livermoreschools.org/marylin
- Number of students enrolled/returning: 360/203
- Number of staff/returning: 24/20
- Grade levels served: PK - 5
- Grade levels to be reopened: PK - 5

Rancho Las Positas Elementary School

- Address: 401 E. Jack London Blvd., Livermore, CA 94551
- Website: livermoreschools.org/rancho
- Number of students enrolled/returning: 592/400
- Number of staff/returning: 30/30
- Grade levels served: TK - 5
- Grade levels to be reopened: TK - 5

Emma Smith Elementary School

- Address: 391 Ontario Dr., Livermore, CA 94550
- Website: livermoreschools.org/smith
- Number of students enrolled/returning: 667/485
- Number of staff/returning: 29/27
- Grade levels served: TK - 5
- Grade levels to be reopened: TK - 5

Sunset Elementary School

- Address: 1671 Frankfurt Way, Livermore, CA 94550
- Website: livermoreschools.org/sunset
- Number of students enrolled/returning: 743/514
- Number of staff/returning: 33/29
- Grade levels served: TK - 5
- Grade levels to be reopened: TK - 5

Vineyard Alternative School (Elementary & Secondary)

- Address: 1401 Almond Ave., Livermore, CA 94550
- Website: livermoreschools.org/vineyard
- Number of students enrolled/returning: 98/25
- Number of staff/returning: 7/7
- Grade levels served: 1 - 12
- Grade levels to be reopened: 1 - 12

Secondary Schools

Following are the secondary schools within LVJUSD, along with the total number of staff members and the total student population of each school, followed by the number returning to campus this spring.

Christensen Middle School

- Address: 5757 Haggin Oaks Avenue
- Website: livermoreschools.org/christensen
- Number of students enrolled/returning: 637/371
- Number of staff/returning: 30/30
- Grade levels served: 6-8
- Grade levels to be reopened: 6-8

Del Valle Continuation High School

- Address: 2253 Fifth Avenue
- Website: livermoreschools.org/delvalle
- Number of students enrolled/returning: 118/67
- Number of staff/returning: 11/11
