IV. Measure J Projects Tour

The CBOC members attended a Measure J Project Tour. The first stop was Junction Avenue K-8 School playground renovation project. The Committee toured a finished playground, as an example of the District-wide Playground Renovation Projects now in progress at various sites. The tour continued to East Avenue Middle School where the Committee had a “drive through” view of the site’s actual conditions, showing the need for the renovation planned for next year. During the visit to Michell K-8 School the Committee walked around, observing the Interim Housing Project in progress. The Michell field was ready to accommodate the portables being moved from their current location onsite. The location of the new classroom building was delineated to help Committee members visualize the finished Michell project. The visit to Granada High School provided an overview of the Stadium Project, where the bleachers were already demolished, and the future athletics area was explained. The last stop was Livermore High School, where the Committee stood at center court of the planned new gymnasium. The Committee also toured the stadium, where the bleachers were already demolished, and walked on the former track. The old rubberized surface was stripped in preparation for new track surfacing and expanded running lanes.
