Criteria for Acceptance of Technology Donations

Computers and Peripherals

Local citizens and businesses often support our schools by donating time, materials, and more. Such donations support school programs in vital ways and are an important factor in the success of our students.   In the technology area, these donations take many forms.   Some donations are important additions to schools, while others are impractical to use and end up becoming disposal problems. Listed below are the minimum computer hardware donation standards for the Livermore Valley Joint Unified School District.

All technology donations **including Donors Choose items must be delivered to the LVJUSD District Office Warehouse at 685 East Jack London Boulevard in Livermore so that they can be properly accounted and asset tagged, before they are delivered to the school site of choice.

Minimum Guidelines

PC:
Windows 7 or newer
Core i5 processor or faster
4 GB RAM
120 GB Hard Drive
