

# SCHOOLGY LOGIN ISSUES

If you're having issues with logging into Schoology, please review the following questions before proceeding with seeking assistance:

1. Are you able to log into Google and/or Chromebook?
2. Are you using [lvjUSD.schoology.com](https://lvjUSD.schoology.com) to access your account?
3. Are you using only your network user name (**do not include @lvjUSD.org**) and password?
4. Additionally, if you are a secondary student, have you changed your password to something you can't remember? If so, please ask a teacher to reset your password for you. Once they do, it will add a preceding zero to the password moving forward.

If you said yes to all of the above and still can't log into Schoology, please connect with your teacher for added support.
